

MMS Open Climbs — User Manual

A complete guide to using MMS Open Climbs — the event management portal for the Metropolitan Mountaineering Society (MMS). This manual covers browsing climbs, creating an account, registering, paying via GCash, tracking your registrations, and the admin/officer tools.

App URL: <https://mms-open-climbs.web.app>

No installation is required — the app runs in your web browser on desktop, tablet, or mobile (Chrome, Safari, Edge, or Firefox recommended).

-

1. Getting Started

MMS Open Climbs lets you:

- Browse the full climb schedule without needing an account
- Create a free account with email/password or Google Sign-In
- Register for open climbs, sign a digital waiver, and submit GCash payment proof
- Track the status of every climb you've registered for
- Print your signed waiver at any time

Officers and administrators additionally get tools to manage climbs, review registrations, verify payments, and manage user accounts — see [For Climb Officers](#) and [For Administrators](#).

Open the app at <https://mms-open-climbs.web.app> to begin.

2. Browsing the Climb Schedule

The home page (**Schedule**) lists every upcoming climb as a card, grouped by month.

Each card shows, at a glance:

- Climb name and date
- Summit elevation
- Difficulty rating
- Trip distance
- Climb type (Minor, Major, or Special)

Filtering the schedule:

1. Use the filter bar near the top of the page.
2. Filter by climb type — **All**, **Minor**, **Major**, or **Special**.
3. Or filter by month — **July** through **December**.
4. Click a card to open its full event page.

You do **not** need to sign in to browse the schedule or view climb details — only registering requires an account.

3. Viewing a Climb (Event Page)

Clicking a climb card opens its event page, which includes:

- **Mountain profile** — summit elevation, difficulty, jump-off point, elevation gain, one-way/round-trip distance, and notable trail features
- **Itinerary** — a day-by-day or hour-by-hour breakdown of the climb schedule
- **Water source notes** — where to refill along the trail, if available
- **Trail photo gallery** — scroll horizontally through trail photos; click any photo to open a full-screen lightbox viewer with keyboard (arrow key) navigation
- **Weather forecast** — an automatically loaded forecast for the climb dates, once the climb's location and dates are set by the organizers
- **Google Maps** — an embedded map of the jump-off point or trailhead
- **External trail links** — where provided by organizers, direct links to the trail on [AllTrails](#), [Strava](#), [Komoot](#), or Google Maps for route details
- **Registration status** — a **Register** button appears if registration is currently open for that climb; if registration is closed, full, or not yet open, the page will indicate that instead

4. Creating an Account

You need an account to register for a climb. From any page, click **Sign Up** in the header.

You can create an account in one of two ways:

Option A — Email and Password

1. Click **Sign Up**.
2. Enter your email address.
3. Choose a password.
4. Submit the form.

Option B — Google Sign-In

1. Click **Sign Up**.
2. Click **Continue with Google**.
3. Choose your Google account and approve the sign-in.

Important: Google Sign-In requires opening the app in a full web browser (Chrome, Safari, Edge). It will **not** work inside an in-app browser — for example, if you tapped the link from Facebook, Instagram, or Messenger. If Google Sign-In fails or shows a blank/error screen, tap the "Open in Browser" option in your social app, or copy the link and paste it directly into Chrome or Safari.

Once your account is created, you're automatically signed in and taken to the Schedule page.

5. Logging In

If you already have an account, click **Login** in the header and either:

- Enter your email and password, or
- Click **Continue with Google** (same in-app-browser caveat as above applies)

After logging in, you'll see your name/email in the header, along with links to **My Registrations** and (if applicable) **Admin**.

6. Forgot Password

If you signed up with email and password and can't remember it:

1. Go to the **Login** page.

2. Click **Forgot Password**.
3. Enter the email address associated with your account.
4. Submit the form.
5. Check your email inbox (and spam/junk folder) for a password reset link.
6. Follow the link to set a new password.

This only applies to email/password accounts. If you sign in with Google, your password is managed by your Google account, not by MMS Open Climbs.

7. Registering for a Climb

1. Sign in to your account.
2. Open the event page for a climb with **open** registration.
3. Click **Register**.
4. Complete the registration form (described below).
5. Click **Submit Registration**.

If you're already registered for that climb (and your registration isn't cancelled), you'll be redirected straight to **My Registrations** instead of seeing the form again — you can only have one active registration per climb.

7.1 Personal Information

Field	Required?	Notes
Full Name	Yes	Pre-filled from your account if available
Mobile Number	Yes	Format: +63 9XX XXX XXXX
Date of Birth	No	
Address	No	City, Province is enough
Experience Level	Yes	Beginner (0–5 climbs), Intermediate (5–20 climbs), or Experienced (20+ climbs)
Participant Type	Yes	MMS Member or Joiner — this affects the Guest Fee (see Fee Breakdown)

7.2 Emergency Contact

Field	Required?
Contact Name	Yes
Contact Mobile	Yes
Relationship	Yes (e.g. Parent, Spouse, Sibling)

7.3 Medical Information

List any medical conditions, allergies, or medications relevant to outdoor activity. Write "None" if not applicable. This information is confidential and is used only for emergency purposes by climb officers.

7.4 Waiver & Release of Liability

1. Read the full waiver text shown on the form.
2. Check the box confirming you have read, understood, and voluntarily agree to the waiver, and that your registration details are accurate.
3. Type your full legal name into the **Digital Signature** field.

Typing your name here is treated as legally equivalent to a handwritten signature. Your typed name, plus a timestamp, is stored with your registration and appears on your printable waiver.

7.5 Fee Breakdown

The form automatically builds a fee table from the climb's configured expenses:

- **Required fees** are marked with a checkmark and included automatically in the total.
- **Optional fees** (e.g. transportation) show a checkbox — check any you want to avail.
- The **Guest Fee**, if configured for the climb, is applied automatically only if you registered as a **Joiner**; MMS Members are not charged it.
- The **Expected Total** at the bottom updates live as you check/uncheck optional fees. It's an estimate — organizers confirm the final amount.

7.6 Payment via GCash

See [Section 8 — Paying via GCash](#) below; this section of the form is where you enter your payment amount and upload proof.

7.7 Submitting

The **Submit Registration** button is disabled until you have:

- Agreed to the waiver
- Entered a payment amount
- Attached at least one payment proof file

On success, you'll see a confirmation screen with:

- A note that your registration is **pending confirmation**
 - Confirmation that an email was sent to your account's email address
 - A **Print Waiver** button
 - A **View My Registrations** button
-

8. Paying via GCash

Each climb may have its own GCash QR code and account details, set by the organizers.

1. On the registration form, find the **Payment via GCash** section.
2. Tap/click the QR code image to open it full-screen for easier scanning.
3. Scan the QR code with your GCash app, or manually send to the **GCash Number / Account Name** shown.
4. **Use your full name as the payment reference or note** so organizers can match your payment to your registration.
5. Back in the form, enter the **exact amount** you paid in the "Amount Paid via GCash" field — this should match your GCash receipt.
6. Under "Upload Proof of Payment," select one or more files:
 - Accepted formats: JPG, PNG (screenshots/photos), or PDF
 - You can select multiple files at once (e.g. the receipt and a screenshot of the transaction history)
7. Confirm the file thumbnails/names appear correctly before submitting.

If a climb's GCash details haven't been set up yet by the organizer, the form will say so — you can still fill out and submit your registration, and attach proof of payment once the QR/details are available. Contact the climb officers in the meantime for payment instructions.

Your payment proof is reviewed by administrators (see [Section 12.4 — Payments](#)), who will mark it **Verified** or **Rejected**. If rejected, you may be asked to resubmit.

9. My Registrations

Click **My Registrations** in the header to see every climb you've registered for.

Each registration card shows:

- Climb name, date, and location
- **Status:** Pending , Confirmed , Waitlisted , or Cancelled
- Your submitted details — name, mobile number, emergency contact, and the date you registered
- A confirmation that your waiver was signed, and the name you signed with

Available actions per registration:

- **View Climb** — return to that climb's event page
- **Print Waiver** — open your printable waiver (only shown once your waiver is signed)

If no registrations exist yet, you'll see a prompt to **Browse Climbs**.

If you are assigned as an **officer** for any climb, an **"Assigned as Officer"** section appears above your personal registrations, listing each climb you help manage with quick links to **View Climb** and **Registrants** (the admin view of that climb's registration list).

10. Your Signed Waiver

Your digitally signed waiver is available at any time from **My Registrations** — click **Print Waiver** on the relevant registration card, or use the link on the confirmation screen right after you register.

The printable waiver page includes:

- The full waiver text
- Your registration details
- Your typed signature and the date/time it was signed

Use your browser's print function (Ctrl+P / Cmd+P) to print it or save it as a PDF. Some climb organizers may ask to see a printed or digital copy on the day of the climb — check with your climb officers if unsure.

11. For Climb Officers

If an administrator assigns you as an officer for a specific climb, you'll see that climb under **"Assigned as Officer"** on your **My Registrations** page, with your role label (e.g. "Officer").

From there:

- **View Climb** opens the public event page, exactly as members see it.
- **Registrants** opens the admin **Climb Detail** view scoped to that climb, where you can:
 - Review each participant's personal, emergency contact, and medical information
 - View uploaded payment proof
 - Confirm, waitlist, or cancel registrations
 - Mark payments as verified, rejected, or reset to "submitted" for re-review
 - Add private admin notes per participant
 - Open a participant's printable waiver directly

You'll also receive email notifications when someone registers for a climb you officer.

12. For Administrators

Administrators sign in with an account that has the `admin` role. An **Admin** link appears in the header, leading to the admin area with the following sections:

12.1 Dashboard

An overview of every climb — type, available slots, and confirmed/pending registration counts. Includes a one-click tool to import the season's full climb schedule into Firestore (useful for initial setup or reseeding).

12.2 Climbs Management

Create new climbs, edit existing ones, and control their registration state (open/closed). From here you can also:

- Set GCash account details (name, number) and upload the GCash QR code image for a climb
- Manage trail photos
- Edit the itinerary and mountain profile fields
- Assign or remove climb officers

12.3 Climb Detail (per-climb registrants)

Opened via **Registrants** from Dashboard or Climbs Management. Shows every registration for a single climb, where you can:

- Open the public event page in a new tab
- Download all registrations for that climb as a **CSV file**
- Review each registrant's full submitted details and uploaded payment proof
- **Confirm** a registration (officially accepts the participant)
- **Waitlist** a registration
- **Cancel** a registration
- Mark payment status: **Verified**, **Rejected**, or reset to **Submitted** for re-review
- Add and save a private admin note per participant
- Open a participant's printable waiver

12.4 Payments

A cross-climb view for reviewing and managing GCash payments — verify or reject proof of payment, and manage each climb's GCash QR code and account details.

12.5 All Registrations

A single searchable table of every registration across all climbs, with:

- Free-text search
- Filters by registration status and payment status
- **CSV export** of the currently filtered list
- Quick links to a participant's printable waiver or their climb's registrant page

12.6 User Management

- **Create a new user account** — this sends the new user a welcome/password-setup email
- **Assign or change roles** — promote an existing user account to `admin`

You can also promote a user to admin from the command line during initial setup:

```
node scripts/set-admin.mjs your@email.com
```

12.7 Analytics

A page-view traffic dashboard, broken down by guest, member, and admin visits over time — useful for understanding how members are using the site.

13. Frequently Asked Questions

Do I need an account to see the climb schedule? No. Browsing climbs and viewing event pages is open to everyone. You only need an account to register.

Can I register for the same climb twice? No. If you already have an active (non-cancelled) registration for a climb, opening that climb's registration form redirects you straight to **My Registrations**.

What's the difference between "MMS Member" and "Joiner"? This affects fee calculation — Joiners are typically charged a Guest Fee (if the climb has one configured) that Members are not.

How do I know if my payment was received? Check **My Registrations** — your registration's payment status is updated by admins after they review your GCash proof. You'll also receive email updates as your registration status changes.

Can I cancel my registration myself? Registration status changes (confirm/waitlist/cancel) are managed by climb officers and administrators. Contact your climb officers if you need to cancel or make changes.

Is my medical information visible to other members? No — medical information is only visible to climb officers and administrators managing that climb, and is used solely for emergency purposes.

14. Troubleshooting

Problem	Likely Cause	What to Do
Google Sign-In does nothing or errors out	You're in an in-app browser (opened from Facebook, Instagram, Messenger, etc.)	Open the app link directly in Chrome, Safari, or Edge instead
"Registration failed" error on submit	Temporary network/connection issue	Check your internet connection and try again; contact an admin if it persists
Payment proof won't upload	Unsupported file type or very large file	Use JPG, PNG, or PDF; wait for large uploads to finish before submitting
Can't find the Register button	Registration is closed, full, or not yet open for that climb	Check back later, or contact the climb officers
Redirected to "My Registrations" when trying to register	You already have an active registration for that climb	View your existing registration under My Registrations
Didn't receive a confirmation or password-reset email	Email delayed or filtered	Check your spam/junk folder; wait a few minutes; confirm you used the correct email address
Waiver signature field won't accept my name	Signature must be at least a few characters (a complete name)	Type your full legal name, not initials

If none of the above resolves your issue, contact your climb officers or the MMS Open Climbs admin team.

15. Glossary

Term	Meaning
Climb	A scheduled mountaineering event/trip listed on the Schedule page
Minor / Major / Special	Climb type/classification categories used to filter the schedule
Joiner	A non-member participant registering for a climb
Waiver	The Waiver & Release of Liability form you digitally sign when registering
Digital Signature	Your typed full legal name, treated as a legally binding signature
Pending	Registration submitted, awaiting review by a climb officer or admin
Confirmed	Registration accepted — your slot is secured
Waitlisted	Registration held pending an open slot
Cancelled	Registration withdrawn or declined
Payment Status	Whether your GCash proof of payment is Submitted, Verified, or Rejected
Officer	A member assigned to help manage a specific climb's registrations
Admin	A user account with full administrative access to all climbs, registrations, and users
